

Montclair Early Music's

Dragon Bards

Montclair Early Music introduces its new *Dragon Bards Recorder Program*. This program combines elements of Dungeons & Dragons, the popular fantasy roleplaying game, with the Suzuki method of learning music by ear. Children collaborate on music to tame the dragons they encounter.

In addition to learning to play songs on the recorder, students are introduced to a variety of medieval and fantasy literary classics.

At the conclusion of the six-week program, the children, accompanied by adults, play at our MedievalFest.

Our past programs were highly successful, culminating with students joining our adult group.
